### COMPOSITE DESCRIPTION

The Large Cap Growth Equity Composite includes all discretionary, fee-paying portfolios managed according to the firm's Large Cap Growth Equity strategy. The strategy invests primarily in U.S. large-capitalization equities with above-average growth characteristics, seeking long-term capital appreciation. Portfolios typically hold 30-50 securities with a market cap floor of \$10 billion. The strategy employs fundamental bottom-up analysis focusing on earnings growth, competitive positioning, and valuation metrics.

### BENCHMARK DESCRIPTION

The benchmark is the SPY - S&P 500 Total Return, a market-capitalization weighted index of 500 large U.S. companies representing approximately 80% of available U.S. market capitalization. The index includes dividends reinvested and is considered representative of the U.S. large-cap equity universe. The benchmark is unmanaged and does not incur management fees, transaction costs, or other expenses.

#### Notes to Performance Table:

1. Returns are calculated using time-weighted methodology (Modified Dietz) with geometric linking as required by GIPS. (#18)
2. Gross returns are presented before management fees but after trading costs. Net returns are calculated by deducting the highest applicable fee (1.00% annually). (#7, #8)
3. The benchmark (SPY - S&P 500 Total Return) is a market-cap weighted index with dividends reinvested. (#9)
4. Number of portfolios represents accounts in the composite at year-end. For years with 5 or fewer portfolios, internal dispersion is not statistically meaningful. (#10)
5. Internal dispersion is calculated using the asset-weighted standard deviation of annual returns of all portfolios in the composite for the full year. (#13)
6. The 3-year annualized standard deviation is calculated using monthly returns for the trailing 36-month period. N/A indicates insufficient history. (#14)
7. Composite AUM and Firm AUM are presented as of December 31 of each year. (#11, #12)

**Verification Status:** Vahanian & Associates Investment Counsel has not been independently verified. Verification does not ensure the accuracy of any specific composite presentation.
